Naturopathic medicine is the treatment and prevention of diseases by natural means. Naturopathic Doctors assess the whole person, and treat the cause of the illness by taking into consideration physical, mental, and emotional aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent healing capacity.

It is very important therefore, that you provide such information as any medications or over the counter drugs you are currently taking, disease processes you are currently suffering from or if you suspect that you are pregnant.

This is to acknowledge that I have been informed and I understand that:

1. I have read all the foregoing information and that I understand that the ultimate responsibility for my health is my own.
2. I am a Naturopathic Doctor, not a Medical Doctor.
3. All treatments offered are within the Naturopathic scope of practice.
4. Any treatment or advice given to me as a patient is not mutually exclusive from any treatment or advice that I may receive now, or in the future, from another licensed health care provider.
5. I am at liberty to seek or continue medical care from a physician or surgeon or other health care provider.
6. I accept full responsibility for any fees incurred during care and treatment. I agree to fully discharge this responsibility at the time of the visit unless prior arrangements have been made.
7. There are some slight health risks to treatment by Naturopathic medicine. These include but are not limited to:
 - Allergic reactions to supplements or herbs
 - Side effects of medications (eg. Hormone Therapy, Antibiotics)
 - Pain, bruising, infection or injury from injections

WHEN YOU NEED A REFILL

Two weeks before you need a refill, please book an appointment by calling the office 858-705-1727 or booking on-line at www.nhealth.ca. Appointments are usually done every 2 – 3 months with Dr. Austin. Appointments are needed to review and properly document how well you are doing with your prescriptions, and lifestyle changes. At this time, we can go over blood work, symptoms, questions, concerns and update Dr. Austin on your progress.

Please allow two weeks, as it takes time to do a follow up and for the pharmacy to mail you your prescription medications on time. This will ensure continuation of your treatment protocol without interruption. If you are unable to come into the office for an appointment and your prescription is going to run out, please let us know two weeks prior and we will be happy to offer you a phone consult. If you are financially unable to do a visit, we will accept post-dated checks and arrange a payment plan for you so this does not stand in the way of your treatment protocol.

Please feel free to e-mail the office with any questions you have about your treatment protocol. Please avoid e-mailing the office with health updates as e-mail is not a secure way to transmit information and we want to be able to keep track of your progress in your file. Sometimes we will not have access to your file when answering e-mails. In the case where you just need a refill called in for a pharmaceutical you have been on for years and we deemed you stable, a refill may be called in for a \$10 admin fee.

I understand the above,

- Prescriptions for controlled medications for sleep, diet, or pain must be picked up at the office on a 3 month basis. These prescriptions cannot be phoned in to pharmacies.
- No prescription dose changes will be made without an appointment.
- If you are sick or have side effects, please contact us immediately.

Tests

- If you misplace an order for testing, we require 24-hour notice to rewrite the order. You can pick it up at the office or we can e-mail this to you.
- Test results will not be discussed via phone unless there is an appointment set up with the doctor to do a phone consult as your visit. Otherwise, test results will be discussed at appointments at the office. This will prevent unsafe e-mailing of this information or discussing of confidential health information outside the clinic.

General

- Please keep all health concern discussions to office visits. Please note, the doctor cannot discuss your health concerns while at Henry's Marketplace.
- Please avoid discussing other people's health concerns at the visit. We have limited time together and we want to ensure we give you the attention and time you need to feel better. I cannot prescribe medication for others who are not my patients.

The policies listed above have been established by me to sure quality care to my patients and improve staff efficiency. Should you have any question please contact our office.
